

# MANAGER WORK

WORK MANAGER helps organisations plan, schedule and manage field service operations from a single platform.

From customer enquiries and job scheduling through to engineer reporting, invoicing and performance management, WORK MANAGER provides complete visibility across your field service operation.

Designed for organisations that want to improve productivity, reduce administration and deliver a better customer experience without lengthy implementation projects or costly consultancy. Typical users include Service Managers, Maintenance Teams, Facilities Management Companies, Contractors, Utilities and Multi-site Organisations.
