

DIGITAL ID

Verify Your Workforce Instantly

Digital ID replaces traditional plastic identity cards with secure digital staff profiles that can be accessed instantly from the pro-Forms® mobile app. Give customers, colleagues and site managers confidence by providing quick access to employee identification, qualifications, training records and company information whenever it's needed.

Ideal for field service organisations, contractors and multi-site businesses, Digital ID helps improve security, demonstrate competence and simplify compliance. Profiles can be updated centrally and shared instantly, ensuring your workforce always carries the latest information without the cost and administration of replacing printed ID cards.
